

## WARRAGUL LINEN SERVICE

### SPONSORSHIP APPLICATION

Warragul Linen Service (WLS) embraces its social and corporate responsibilities. It has a positive relationship in the community in which it operates, which in turn contributes positively to its operational effectiveness.

WLS provides a number of forms of sponsorship in recognition of the important role we play in the community to those organisations that provide a positive impact on its members.

To ensure WLS manages sponsorship requests in a consistent and ethical manner, whilst fulfilling the organisation's objectives, a formal application for sponsorship is required from each sponsor seeker which is evaluated against a set of criteria.

#### **Objectives:**

WLS aims to provide in-kind sponsorship to organisations that share in our commitment to improved health outcomes and community engagement. WLS also supports local community programs in recognition of its corporate social responsibilities.

#### **Limitations:**

WLS will not engage in sponsorship that may be inappropriate, either through association or activity. The following activities would be considered inappropriate for the purposes of sponsorship:

- Sponsors whose purpose and objectives are inconsistent with WLS and/or West Gippsland Healthcare Group
- Organisations involved in the sale/promotion of socially undesirable products and services
- Organisations that are financially unsound or unstable
- Organisations or activity requiring WLS to directly endorse or promote its products and/or services.

There are risks and benefits associated with sponsorship arrangements, which require careful review to ensure an ethical framework promoting the organisation's accountability and transparency.

In order for sponsorship requests to be fully considered, please ensure they are submitted at least 1 month prior to when sponsorship is desired.

If, after having read the above, you have a sponsorship opportunity which you would like to submit, please complete the attached 'Sponsorship Application Form' and forward with any relevant documentation to:
